DETAILED ACTION

Allowable Subject Matter

1. Claims 5, 8, 9, 11, 15, 16, 19, 21, 27, 28 & 31 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The art of record does not suggest the respective claim combinations together and nor would the respective claim combinations be obvious with:
3. As per claim 5: the remote device verifying the identification signal; and the remote device generating a response signal; wherein the identification signal is comprised of a number of bits thereby allowing adjacent device pairs in a cable bundle to have unique identifications.
4. As per claim 8: the local device generating a request signal to initiate a handshake session, the request signal including an identification signal representative of the identification; configuring the request signal with differential phase reversals to include the identification signal.
5. As per claim 9: the local device generating a request signal to initiate a handshake session, the request signal including an identification signal representative of the identification; configuring the request signal with an additional tone to initiate the identification signal.
6. As per claim 11: wherein the remote and local identification signals are each comprised of a number of bits thereby allowing adjacent local-remote device pairs in a cable bundle to have unique remote and local identifications.

Art Unit: 2611

7. Claims 15 & 27 are allowed for the same reason mentioned in claim 8 allowance above.
8. Claims 16 & 28 are allowed for the same reason mentioned in claim 9 allowance above.
9. As per claim 19: wherein the local and remote identification signals comprise three octets within an identification field.
10. Claim 21 is allowed for the same reason mentioned in claim 5 allowance above.
11. Claim 31 is allowed for the same reason mentioned in claim 19 allowance above.
12. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
 - Paridaens et al. (6,839,320) disclose performing authentication over label distribution protocol (LDP) signaling channels.
 - Mueller et al. (6,396,912) teach method and system for connecting multiple DSL modems to a telephone line.
 - Palm (6,765,957) discloses activation of multiple XDSL modems with implicit channel probe.
